**A COMPLETE AND INDEPENDENT SYSTEM FOR RECEIVING,
STORING, FEEDING, METERING AND PROCESSING HYDRATED
LIME FOR PH ADJUSTMENT**

A large, blue, cast-iron industrial valve is mounted on a light-colored wall. The valve has a prominent handwheel with four spokes in the center. To the right of the valve, there is an orange actuator or motor. Below the valve, there are several horizontal pipes and some smaller components, including what looks like a pressure gauge or sensor. The overall scene is an industrial setting, likely a water treatment plant or a similar facility.

A yellow and green Karcher K2 pressure washer is positioned on a concrete floor. The machine has a green motor and a black hose attached. It is next to a white bucket and a white pipe. The floor is made of concrete and there is a white vertical pipe on the left side of the image.

FEEDER & SLURRY TANK

SLOGAN SYSTEMS

INDUSTRIES SERVED AND TYPICAL APPLICATIONS

MINING—Water Treatment and pH Control

MUNICIPAL and INDUSTRIAL—Water Treatment

CHEMICAL—Air Pollution Control

MINERAL— Acid Neutralization
